

1. Don't sleep my little girl while the music plays

Don't sleep my little girl while the music plays
A crazy rhythm won't let anyone in peace
Mother is in bed and for a long asleep
No one will know that you've been with us

I will wait for you for a while
Than I'll go to dance alone
Than I'll go to dance alone

Wake up everybody is calling you
Music is aloud
Let's dance
Our band is here
Daddy sleeps
Dark is everywhere
No one will know that you've been with us

I will wait for you for a while
Than I'll go to dance alone
Than I'll go to dance alone

Because my baby that's rock 'n' roll
Rock 'n' roll, rock 'n' roll,
Little that is rock

2. I will give you everything to have dance with you

I will give you everything to have dance with you
Play....a woman knows
Why I can't sleep
I dance alone
I'll give a last penny
To dance more

Play my blood is hot tonight
With the wine I paint the world
I am burning all
I'll give a last penny
To dance more

Play all night long
Play all night long

I will give you my house
I will give you my soul
My horse I will sell
I will give it to you all

Only to dance

2. Selma goes to university

Selma goes to university
She travels
I carry a bag
I beg

It's heavy but because it's hers
I love that bag even more

Selma I wanted to tell you when you stepped up the train
Something endearing
Something to be moved by
But I said only
Buy Selma
And please do not band over a window

Selma, Selma
Buy Selma
Travel Selma
And please do not band over a window

4. I am I pain for ten long days

I am in pain for ten long days
Hey, Hey, Hey
All because of the girlfriend of a friend of mine
Girl Hey

Mother I am dying because of her
Mother I am dying because of her

Whole hamlet and her father knows
That I love her out of spite

Happy her
I'll give her mother
Ring of mine

Ring I will give her mine

You & Me
Out of spite, spite, spite.

5. If I were a white button

My little girl if I were a white button
Would you little button up with me

If I were a white button
Little would you button up with me

If I were a button blue
She wouldn't know that I slept beside her

Hey Little Hey
If I were a white button Heeeeeeeey

If I were a golden chain
I would hug you around the neck
I would touch you around the neck

Hamlet does not know, neither knows her mother

6. Blues for my Ex lady.

I will never go back
To my birth place

No one is awaiting me there
And long ago all faces have faded
And since long ago I cannot remember their names

Only sometimes in winter
I remember you
You my Ex lady
Some tenderness long ago
Something is whispering in my hart and I know
That I am alone in this world

And if I saw you again
What could I tell you about myself
But that I met a lot of people
And none of them was friend to me

And that I was
Hungry and glorious and happy and paid
And poor
And that I've been kissed by lots of women
And that I never loved any of them

Something is whispering in my hart and I know
That I am alone in this world

My Lady, my Lady
My Ex lady

And tired an old man I am
Even though I look young
